

## Printing Student End-of-Course Evaluations from Blackboard

I've had a few inquiries on how to get a nice clean copy of your student evaluations out of the new gradebook. Good news...it's easier than ever:

1. Go to your gradebook
2. Select the drop-down menu for the Student-End-Of Course Evaluation
3. Select Attempts Statistics

This will take you to a nice, clean page with all of the wonderful, glowing responses you can print directly or paste into Word and save.
